

Mermaid Diagram Samples

the paper project

— Sahu, S

Alignment

Text alignment uses raw LaTeX fences. Wrap any block in `\begin{center} / \end{center}`, `\begin{flushleft} / \end{flushleft}`, or `\begin{flushright} / \end{flushright}`.

Center:

This line is centered.

Right-align:

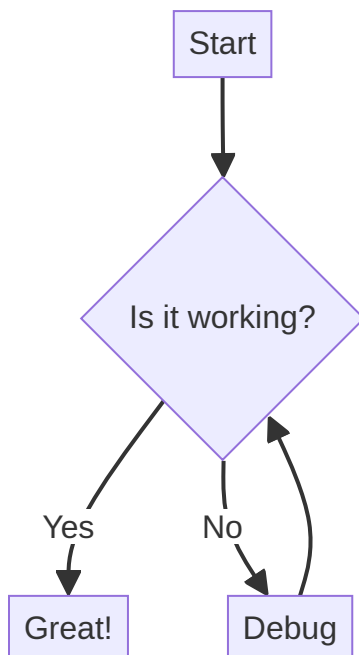

This line is right-aligned.

Left-align (overrides justify):

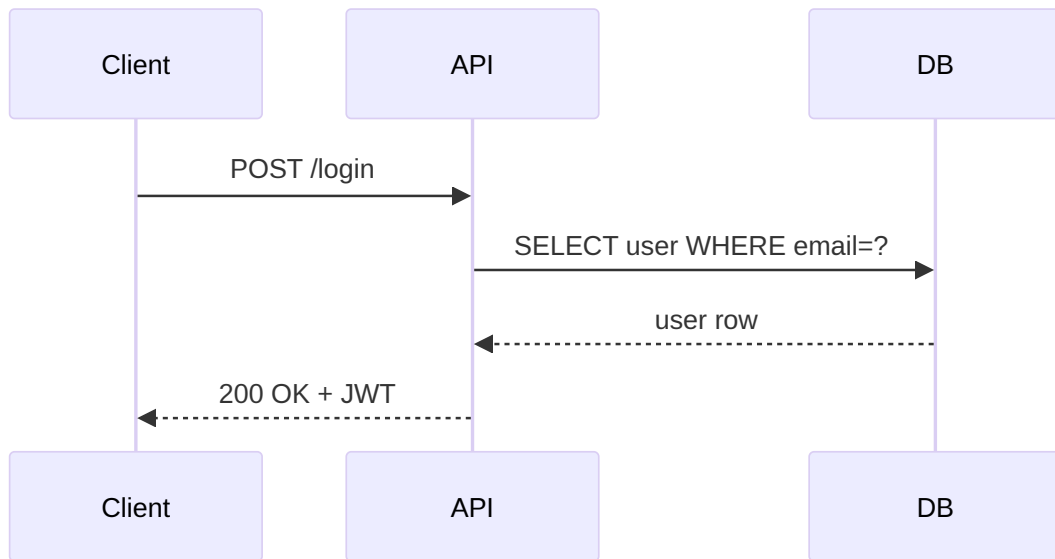

This line is left-aligned.

Individual inline text can be nudged with `\hfill` to push content to the right edge of the line: left side right side
